(Lawyer.)
CHARLES ERD, Secretary.
(Lawyer.)
SEMPLE S. SCOTT, General Manager.
(Electrical and Mechanical Engineer.)

CONCESSION

The Electric Auto Chair Company has been granted an Exclusive Concession for the operation, upon the World's Fair Grounds before and during the World's Fair at St. Louis, of Electric Auto Chairs.

VALUE OF THE CONCESSION

The opinion is general that this will prove to be the Most Profitable Concession granted in connection with the World's Fair.

ESTIMATE OF EARNINGS.

RECEIPTS.

1,000 chairs, carrying two passengers each, at 75c per hour, averaging only 8 hours' use per day, for 200 days.....\$1,200,000.00

EXPENSES.

All expenses of every kind, including percentage to Exposition Company.....423,200.00

Net Profits.....\$ 776,800.00

OVER 2,000 PUSH CHAIRS WERE USED AT THE WORLD'S FAIR AT CHICAGO.

BUSINESS AFTER THE FAIR.

The numerous letters thus far received from persons at Atlantic City, N. J., and other coast and health resorts, where it is believed that the Auto Chairs will prove to be extremely popular, asking for prices and terms upon the Chairs and similar inquiries that reach the company almost daily, leave no doubt in the minds of the officers of the company that at the close of the World's Fair all the Auto Chairs then on hand can be sold at a handsome profit over their cost, and many more can be leased in large quantities or sold in large lots for use at such places, and a profitable business conducted for many years.

A portion of the Preferred Stock is now for sale at par. With every two shares of said stock one share of the Common Stock will be delivered to the purchaser as a bonus.

Write for descriptive prospectus and further information, addressing

Dealers in municipal and corporation bonds, local stocks, bonds and notes. Orders in other cities promptly executed by private wire. Money to loan on real estate and other securities.

A few first-class dividend-paying stocks and interest-bearing gold bonds for sale at a great bargain.

E. F. LUGAR,

Stock and Bond Broker,

1308 and 10 Commercial Building, ST. LOUIS, MO.

Wheat was the strong spot in yesterday's market. While there was not a great deal of speculative interest, there were enough bullish indications to make the shorts nervous and anxious to cover over Sunday. A few of the professional longs also added to their holdings and there was some outside buying. The principal factor at the opening was the unexpected strength of the foreign markets. Liverpool was strong and the Continental conditions indicated a rapid depletion of European stocks in wheat. Though weather conditions were rather favorable, speculative sentiment was all one way, and, except for occasional recessions, the tone of the market was strong throughout. Minneapolis was again a factor. Weather in the Northwest was said to be unpromising and cash and future buying in the spring-wheat markets was brisk.

Corn had some early support, based on higher cables and the advance of wheat, but conditions were so bearish that there was a reaction in the second hour. Receipts were heavy and there was practically no outside buying demand. Sept. wheat opened 1/4c up and closed 1/4c off. Sept. oats opened unchanged and closed 1/4c off. Receipts of produce were in fair volume, but there was a good demand and prices were generally steady.

Local securities were moderately active. Transactions were the feature. Prices advanced after an early break.

Yesterday's bank clearings were \$5,249,213, balances \$11,053. Discount rates were steady between 5 and 6 per cent.

Spot cotton was steady in the local market.

BULLISH SENTIMENT HOLDS CONTROL OF GRAIN PITS.

IMPROVED EXPORT DEMAND STRENGTHENS WHEAT.

Trading in Corn Is Quiet, but Market Is Steady All Day—Oats Fairly Strong.

Chicago, Aug. 8.—A bullish sentiment prevailed the grain pits today and a good demand. Wheat ruled strong, the Sept. delivery closing with a gain of 1/4c. Sept. corn was up 1/4c; oats were 1/4c higher and provisions from 5c to 10c higher.

An improvement in the export demand, higher Liverpool markets and a continued small movement were bullish influences which caused a strong opening in wheat. There was a good demand from commission-houses and traders at the start, principally for the Sept. delivery, and that month opened 1/4c to 1/2c higher to 7/8c to 1 1/8c. Some sentiment of speculation during the first few minutes caused a slightly easier feeling when Sept. sold off to 7/8c between 10 and 11 a.m., but the market quickly regained all the loss, and prices continued to advance as the session progressed. During the latter part of the session there was considerable buying on prospects of a bullish Government report, and on the strength of the outside markets. Sept. advanced to 1 1/8c, but eased off later, closed at 1 1/4c. Clearing for Sept. 1930 was 142,500 bushels, against 139,700 a year ago. Receipts for three points at 347 cars, against 106 cars, which, with local receipts of 141 cars, 37 of contract grade, made total receipts for three points 347 cars, against 249 cars last week, and 250 cars a year ago.

Trading in corn was rather quiet and the market ruled steady throughout the day. Local bulls and some commission-house speculators were good buyers of the May delivery and the selling was mostly by longs. There was a disposition to hold, and to await the Government report, which will be issued Monday and which is expected to be bullish. The market closed at 1 1/4c, against 1 1/8c the previous day. Local receipts were 113 cars, with 13 of contract grade.

Oats ruled fairly strong, with moderate advances in all months. The sentiment in general was bullish, and the market showed a strengthening feature. Trading on the whole was rather light. The close was firm, with Sept. 1/4c higher, at 34 1/2c, against 34c the previous day. Local receipts were 15 cars, against 15 cars last week, and 25 cars a year ago.

PROVISIONS.
Provisions experienced better support than for some time past, and a firm tone prevailed. Small receipts of hogs and beef, and a disposition to hold, were factors, and with a fair demand from brokers prices were well maintained. Sept. 1930 closed at 10 1/2c, against 10c the previous day. Local receipts were 15 cars, against 15 cars last week, and 25 cars a year ago.
